## **EASY TO MOVE**

### LIFTER GS PRO, SPECIAL AND 3000 KG

The GS PRO pallet truck is equipped as a standard with an entry and exit roller and a more ergonomic handle than the GS Basic. Available with weight capacity of up to 3000kg.

#### **MAXIMUM PRESSURE VALVE**

When the maximum load capacity is exceeded, oil pressure exceeds its maximum limit and the valve automatically locks the forks. Thus possible structural damage is avoided.

#### **VARNISHING**

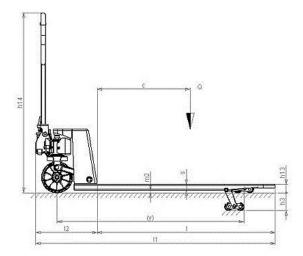

Following an appropriate conditioning operation the frame is varnished with polyester powder at a temperature of 250° to guarantee maximum resistance to wear and atmospheric agents.
